Same page, different text layer

SEARCHABLE-ORCHID-2048

This sentence exists as PDF text in the original.

The image-only copy keeps the visible page appearance.

Text extraction and visual appearance are separate checks.

What this comparison proves

1. The files have different underlying structures.
2. A page can look readable but have no text objects.
3. No Canva import, OCR or font-fidelity test was run.
